THE O.T. MINING CORPORATION
(An Exploration Stage Enterprise)
NOTES TO THE UNAUDITED FINANCIAL STATEMENTS
June 30, 2016

NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS

The O.T. Mining Corporation (the Company or OT) was incorporated in September of 1980 under the laws of the State of Montana as Ruby Resources of Montana Inc. for the purpose of acquiring and developing economic ore bodies. In May 1987, the Company changed its name to The O.T. Mining Corporation. The Company has elected a June 30 fiscal year-end. The Company is in the exploration stage, as it has not realized any significant revenues from its planned operations.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. The accounting policies applied in the preparation of the financial statements conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Accounting Method

The Company uses the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Cash Equivalents

The Company considers all highly liquid investments with maturity of three months or less when purchased to be cash equivalents.

Concentration of Risk

The Company maintains its cash in a commercial bank in Westmount, Quebec, Canada. The Canadian dollar accounts in Quebec are guaranteed by the Canadian Deposit Insurance Corporation (CDIC) up to \$100,000 Canadian. At June 30, 2016, the Company did not exceed the CDIC insured limits.

Earnings Per Share

The Company calculates "basic" and "diluted" earnings per share. Basic earnings per share includes no dilution and is computed by dividing net income available to common shareholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity similar to fully diluted earnings per share. Although there were common stock equivalents outstanding, they were not included in the calculations of earnings per share because they would have been considered anti-dilutive.

Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Exploration Stage

The Company has been in the exploration stage since its formation in September 1980 and has not yet realized any revenues from its planned operations. It is primarily engaged in the acquisition, exploration and development of natural resource properties. Upon establishing the

existence of proven reserves in one of its properties, the Company plans to sell the reserve-containing property for cash or stock or a combination thereof.

Foreign Currency Translation

As the Company's functional currency is the U.S. dollar, and all translation gains and losses are transactional, the Company has no assets with value recorded in Canadian dollars and there is no recognition of other comprehensive income from foreign currency translation in the financial statements.

Foreign Operations

The accompanying balance sheet contains certain recorded Company assets (principally cash) in a foreign country (Canada). Although Canada is considered economically stable, it is always possible that unanticipated events in foreign countries could disrupt the Company's operations.

Mineral Exploration and Development Costs

All exploration expenditures are expensed as incurred. Significant property acquisition payments for active exploration properties are capitalized. If no minable ore body is discovered, previously capitalized costs are expensed in the period the property is abandoned. Expenditures to develop new mines, to define further mineralization in existing ore bodies, and to expand the capacity of operating mines, are capitalized and amortized on a units-of-production basis over proven and probable reserves.

Should a property be abandoned, its capitalized costs are charged to operations. The Company charges to operations the allocable portion of capitalized costs attributable to properties sold. Capitalized costs are allocated to properties sold based on the proportion of claims sold to the claims remaining within the project area.

Reclassification

Certain amounts from prior periods have been reclassified to conform to the current period presentation. This reclassification has resulted in no changes to the Company's accumulated deficit or net losses presented.

NOTE 3 – MINERAL PROPERTIES

Ruby Mines Property and Mineral Claims

By agreement dated July 28, 1980, Ruby Resources, Ltd. acquired from Fargo Energy Corporation, a related party, five patented and thirty-one unpatented mining claims consisting of approximately 614 acres, located in the lowland Mining District of Jefferson County, Montana, USA. The claims were acquired with an encumbrance attached thereto, since discharged by payment of \$66,000. On August 13, 1980, Ruby Resources, Ltd., the parent company, granted a deed to such realty and mineral claims to O.T. Mining Corp. (formerly Ruby Resources of Montana, Inc.) in return for 50,000 shares of the Company's common stock valued at \$102,565. Such shares are presently 400,000 since the Company split its stock at eight shares for each one share owned on June 1, 1987.

NOTE 4 – PREFERRED STOCK

The Company is authorized to issue 5,000,000 shares of \$0.01 par value preferred stock. The board of directors of the Company has the authority to issue shares of preferred stock from time to time in one or more classes or series, which may have such voting power, full or limited as fixed by the board of directors. The board of directors may also fix the terms of any such series or class, including dividend rights, dividend rates, conversion, exchange, voting rights and terms of

redemption, the redemption price and the liquidation preference of such class or series. No shares of preferred stock are issued or outstanding.

NOTE 5 – COMMON STOCK

The Company is authorized to issue 200,000,000 shares of common stock. All shares have equal voting rights, are non-assessable and have one vote per share. Voting rights are not cumulative and, therefore, the holders of more than 50% of the common stock could, if they choose to do so, elect all of the directors of the Company. There are 30,586,061 and 30,203,936 shares of common stock issued and outstanding at June 30, 2016 and 2015, respectively.

During the year ended June 30, 2016, the Company issued 382,125 shares of common stock pursuant to a private placement. The share units were valued at \$0.08 per share and included a warrant to purchase an additional share at an initial exercise price of \$0.16 per share.

During the year ended June 30, 2015, the Company issued 425,000 shares of common stock pursuant to a private placement. The share units were valued at \$0.08 per share and included a warrant to purchase an additional share at an initial exercise price of \$0.16 per share.

NOTE 8 – ENVIRONMENTAL OBLIGATIONS

The Company's mining and exploration activities are subject to various federal and state laws and regulations governing the protection of the environment. These laws and regulations are continually changing and are generally becoming more restrictive. The Company conducts its operations so as to protect the public health and environment and believes its operations are in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

NOTE 9 – LOAN

On August 27, 2015, the Company received proceeds of \$33,000 Canadian from a promissory note. The loan is due and payable on November 30, 2015, after which, the note will bear interest at 1% per month.

The loan was not repaid at the due date and interest was accrued for one month. The note was also secured by the issuance of 500,000 shares of common stock at \$0.08 per share. Attached to each share is a warrant at \$0.16 per share which will expire on October 26, 2016.

The Company will also issue 100,000 shares of common stock in consideration for the loan.
