Montreal, September 13, 2005

SHAREHOLDER UPDATE

Dear Shareholders and Interested Parties,

During our last visit to Butte in July, Rosemary and I brought IDNR TV, the company that produced all of O.T. and Namex's website interviews, to Montana to film OT in action.

To view this 25 minute presentation, should you have a high speed connection, go to www.otmining.com. At the top left hand side of the home page, you will see a movie camera icon. Click on IDNR TV report on O.T.'s drilling....

Should you not have a high speed connection DVDs will be available upon request.

The O.T.'s 2005 exploration program is going very well. Two drills are working double shifts. A news release update will be out shortly.

The O.T. owns a 21% interest in www.namex-explorations.com, listed on the TSX.V, symbol NME. Namex is exploring its strategically located projects within the one of the world's most active mining camps, The Sudbury nickel, platinum group metals, gold and copper mining complex in Ontario, Canada.

Please contact me with any questions you may have.

Sincerely yours,

James W. Hess
President
